

STOCK REPORTS.

But Little Animation in the Market This Afternoon.

A Slight General Advance Recorded.

Heavy Gold Shipment Booked for To-Morrow.

WALL STREET, Friday, July 8.—The improvement which set in at the Stock Exchange yesterday morning, continued to make progress today. Prices made a further advance of 1/4 to 1/2 per cent., and there were purchases for out of town as well as for local accounts.

The declaration of a semi-annual dividend of 2 per cent. in cash by Louisville & Nashville, which is better than expected, had a good effect on the whole market. London bought Louisville and other stocks.

There was but little animation in the stock market at any time this afternoon, but the leading shares met with good support, and in a majority of instances higher prices were recorded.

The fact that the gold engagements for tomorrow are less than a sixth of the estimates made early in the week induced the bulls to hold with more vigor late in the day.

There was no particular feature, but pretty much everything moved up in unison. Chicago gas was a notable exception, yielding about 1/2 cent.

The fact that matters remain comparatively quiet at the Homestead mill give the bulls fresh courage, but the potent factor is the increasing belief that the Free Coinage Silver bill will be defeated in the House. This has caused some operators who sold out on the recent scare to take back their stocks.

The Richmond Terminal Committee of Fifteen has appointed George F. Stone, J. C. Tabor and W. E. Strong a committee of three to confer with the banking interests respecting the reorganization of the property.

The Colorado Fuel Company has declared a semi-annual dividend of 4 per cent. on its preferred stock, payable Aug. 1.

The American Tobacco Company has declared a quarterly dividend of 1 per cent. on the preferred stock, payable Aug. 1.

Lead, silver, tin, and other metals, and the various European currencies, were all quiet.

The following are the closing quotations of mining stocks at the Consolidated Exchange today:
